IWE/IWT/IWS COURSE 2019

E-Learning & Classroom Learning

International Welding Engineer (IWE)
International Welding Technologist (IWT)
International Welding Specialist (IWS)

Course according to IIW Guideline IAB-252r1-R1-16

The course leads to a diploma which is required according to ISO 3834 and ISO 14731. Its contents correspond to the requirements of industrial practice. The course will be of great interest for engineers, technologists, welding coordinators or work managers in the following fields:

- Process plants
- Structural steelwork
- Bridges
- Pressure vessels
- Pipework and pipelines
- Storage tanks
- Offshore structures
- Earth moving equipment
- Marine ship building and ship repairing
- General heavy machinery
- Power generator equipment
- Material testing

ACCESS

The course is open to those who have completed an engineering degree or equivalent graduation for IWE or higher technical education for applying IWT or a specific technical education below that required for the International Welding Technologist but higher than a professional worker for IWS.

DIPLOMA

After successful completion of the course and passing the examination the participant receives an IIW diploma.

07 - 24 MAY 2019
CLASSROOM LEARNING IN GERMANY

PART 1: THEORETICAL EDUCATION (APPROX. 8 WEEKS)
Module 1: Welding processes and equipment
Module 2: Materials and their behaviour during welding
Module 3: Construction and design

PART 3: THEORETICAL EDUCATION (APPROX. 4 WEEKS)
Module 1: Welding processes and equipment

11 SEPTEMBER - 04 OCTOBER 2019
CLASSROOM LEARNING IN GERMANY

PART 3: THEORETICAL EDUCATION
Module 2: Materials and their behaviour during welding
Module 3: Construction and design
Module 4: Fabrication, application engineering

E-LEARNING

PART 1: THEORETICAL EDUCATION
Repetition and intensive preparation
Written examination Part 1

PART 2: PRACTICAL EXERCISES
Fundamental practical skills in oxy gas, manual metal arc, gas shielded metal arc and gas tungsten arc welding, demonstration of other welding processes

PART 3: THEORETICAL EDUCATION
Module 1: Welding processes and equipment
Written examination Part 3 (Module 1)

E-LEARNING

PART 3: THEORETICAL EDUCATION (APPROX. 12 WEEKS)
Module 2: Materials and their behaviour during welding
Module 3: Construction and design
Module 4: Fabrication, application engineering

Final oral examination
ENROLLMENT FORM
International Welding Engineer /
International Welding Technologist
Course 2018/2019

To register, please fill in this form in block capitals or by typewriter, detach and send along with check, money order or purchase order to
GSI – Gesellschaft für Schweißtechnik International mbH
Branch SLV Duisburg
Bismarckstraße 85, D-47057 Duisburg
Fax: +49 203 3609003
or E-Mail: moll@gsi-elearning.de

If there are more participants, please copy this form.

A. Company/Organization

Name: ____________________________

The course-fee will be paid by
☐ the company
(Please send extra order)
☐ the participant

I require accommodation
☐ yes ☐ no

☐ Copy of diploma annexed
(Please send only copies, no return of documents)

Place/Date ____________________________ Signature (company/organization) ____________________________
Place/Date ____________________________ Signature (participant) ____________________________

Cancellation of attendance by a prospective student (company) may take place up to four (4) weeks prior to starting date of course without charge. Notification to SLV Duisburg within four (4) weeks prior to starting date for cancellation of attendance in the course will result in a handling charge of 250,00 EURO. Failure to notify of non-attendance or a „No-show” on the assigned starting date will result in a handling fee amounting to 50% of the paid course tuition.

If the minimum number of students is not registered for a given course four (4) weeks prior to starting date, you will be notified of course cancellation. At that time you may either request your tuition be returned or choose to apply it to the next available starting date for the same course.

If your enrollment arrives after a class has been filled, you can select another date or receive a full refund. The tuition includes welding manuals, workbooks, literature and technical data.
