PREPARATION COURSE FOR THE AWS-CWI EXAMINATION

2014, June 30 - July 11
SLV Munich, Germany
Invitation

CONTENTS

Steel structures or parts of it for utilisation in the American market, need originally the inspection by a Certified Welding Inspector (CWI).

According to AWS QC1, is the purpose of welding inspection, to determine if a weldment meets the acceptance criteria of a specific code, standard, or other document. The Welding Inspector must be thoroughly familiar with welding processes, welding procedures, welding qualifications, materials, the limitation of weld testing, be able to read drawings, prepare and keep records, prepare and make reports and make responsible judgements. For Welding Inspectors to be effective, the activities performed should be consistent with the requirements, technical and ethical principles.

The GSI mbH, branch SLV Munich offers in cooperation with Hobart Institute and the American Welding Society a two week preparation course for the purpose to enable participants to be prepared to take the examination. The used Code Book is AWS D1.1 (2010). The examination, operated by AWS consist on three parts. Applicants seeking CWI certification shall successfully meet the required 72% score of the following examination parts:

EXAMINATION	QUESTIONS
Part A – Fundamentals	150
Part B – Practical	46
Part C – Code Book (D1.1)	46

SUPPLEMENTARY NOTES:

- The Code Book D 1.1 and a scientific calculator (not programmable) are required at the beginning of the course. You can order the Code book at AWS.
- The course will start at 06/30/2014 and end with the examination by AWS at 07/11/2014.
- This course will be executed in english language.
- Due to the correspondence with AWS, the deadline for the announcement is 05/30/2014.
